TECHNOLOGY, MACHINERY & PEOPLE

Technology & Infrastructure

- **33+ processing plants.**
- **25,700+ MT/day capacity** (expanding).
- 2-stage & 3-stage trommels.
- Vibrating screen machines.
- Horizontal disc separator systems.
- Supporting systems for air density separation, magnetic separation, composting and weighbridges.
- Fully data-driven operations from day one with computer-controlled processes and CCTV monitoring.

Manpower & Safety

- **600+ direct and indirect employees .**
- Strict Environment, Health & Safety (EHS) standards.
- Dust, odour, fire safety, and continuous environmental monitoring.

ENVIRONMENTAL IMPACT & VISION

Our Impact

- Reclamation of contaminated dump sites.
- Reduction of methane emissions.
- Recovery of valuable resources from waste.
- Support to circular economy initiatives.

Our Vision

- Expand processing capacity beyond **40,000 MT/day**.
- Enter new markets across India.
- Develop waste-to-energy and smart segregation partnerships.
- Strengthen India's integrated solid waste management ecosystem.

Trusted partners in sustainable waste management

ABOUT US

- Tharuni Associates is a leading environmental solutions company specializing in **bio-mining and bio-remediation of legacy municipal solid waste**.
- Founded in 2014, we have grown from an agricultural equipment supplier into **Andhra Pradesh's most trusted landfill mining agency**, supporting government bodies in reclaiming land, improving public health, and restoring the environment.
- Under **Swachh Bharat Mission(SBM) 1.0**, we supplied waste management equipment to Gram Panchayats across the state.
- In **SBM 2.0**, we took a pioneering role in large-scale legacy waste remediation projects.

WHAT WE DO

Our Core Expertise

- Bio-Mining & Bio-Remediation of Legacy Waste above and below ground level.
- Proven expertise in bio-mining of legacy waste from Water bodies.
- Landfill Reclamation & Environmental Restoration.
- Scientific Waste Segregation & Resource Recovery.
- RDF (Refuse-Derived Fuel) Production & Supply.
- Compost & Bio-Soil Generation.
- Zero-Residue Waste Processing Solutions.

We also handle complex environmental challenges including **quarry pit waste, methane containment, and contaminated sites,** making us a preferred partner for Urban Local Bodies (ULBs).

SCALE & EXPERIENCE

Operational Strength

- **85+ active project sites** across Andhra Pradesh.
- **50+ lakh metric tons** of legacy waste processed.
- Presence in major cities including Guntur, Kakinada, Kadapa, Rajahmundry, Vizianagaram, Srikakulam, Rayachoty, Proddatur, Ongole and many more.

We also handle complex environmental challenges including **quarry pit waste, methane containment, and contaminated sites,** making us a preferred partner for Urban Local Bodies (ULBs).

Recognition

Awarded Best Bio-Mining Agency-Andhra Pradesh(2025) by the Hon'ble Chief minister of AP on Swachha Andhra Day.
